

In order to make as many books and videos as possible available while we are closed, we are pleased to now provide access to HOOPLA, a virtual library with thousands of titles available to Orange Beach residents with an active library card. All other card holders that do not have an Orange Beach address cannot use the service at this time.

To access HOOPLA, first create an account on their website: www.hoopladigital.com Click Get Started, choose Orange Beach Public Library, enter your email and a password of your choosing, then your Orange Beach Library card number. (Your card should contain 14 digits and begin with 21067.)

Once you have created your account you can access it 24/7 from computer or the free phone app. From their homepage you can search by title or item type (audiobook, movies, music, comic, ebooks, or television) and narrow by subject, release date, most popular items, Kids or adults, or other ways.

You are able to check out 10 items per month per card. By clicking "My Hoopla" you can see your checkouts, how many titles are available and recommendations.

Though nothing takes the place of the actual library, we hope that this will at least give you some reading and listening pleasure until we can reopen to the public. We look very forward to seeing you again! Please call us if you have any questions.
